i don t think i can actually remember a time in policing when i didn t want to join the armed offenders squad my early reasons for joining probably weren t the purest though i just thought they looked really cool five foot and fearless is the inspiring story of liz williams a police officer and mum of one who desperately wanted to be part of the armed offenders squad the brutal selection process would send most people running for cover but her husband s words spurred her on you know you could do it if you wanted to liz s story is one of determination and girl power she struggles with motherhood and childcare just like any other working mum but in liz s world she needs someone to look

after her son at 1 a m when she s called on to fight crime a gifted storyteller liz entertains with tales of drowning in aos gear that is too big for her trying to keep her togs from riding up in the swim trial and dealing with criminals in bad underwear but her story has a darker side as she reveals the harsh realities of the job that an aos member faces every day liz s account of the 2009 napier siege is especially harrowing at times laugh out loud funny at other times shocking liz s story offers rare insights into one of the most dangerous jobs in the country

safety critical jobs in fields such as aviation and nuclear power plants require a careful and comprehensive analysis of all factors relevant to critical job performance understanding how these factors uniquely and in combination affect performance requires interconnecting a job performance database with several other information databases the scientific method is necessary to ensure information quality to solve problems or project trends and to correctly evaluate changes in selection training performance evaluation the person machine interface or team dynamics combining the scientific method with the construction validation and use of the information databases results in a scientific information system sis which joins practical utility with powerful evaluations of relevant theories this book discusses how to blend scientific methods with the broad capabilities of computer database information systems this synthesis will aid anyone who is trying to explain predict or change the behavior of a complex system involving humans whilst developed from research on information systems in the aviation industry the principles and methods are universal and the book provides conceptual guidance for the construction and use of such systems in other domains the examples clarify the advantages of this type of information system and the enormous potential power for understanding a target system completely and accurately

the support vector machine svm has become one of the standard tools for machine learning and data mining this carefully edited volume presents the state of the art of the mathematical foundation of svm in statistical learning theory as well as novel algorithms and applications support vector machines provides a selection of numerous real world applications such as bioinformatics text categorization pattern recognition and object detection written by leading experts in their respective fields
